# Your son or daughter is still a senior. It's not too late...

Parents,

In about eight months, your son or daughter will graduate high school and soon after, head off to college. The senior portrait commemorates this milestone and is how you'll remember them long after they have left your loving home to follow their dreams.

It makes us sad when we hear about kids that refuse to have senior pictures taken, got a bad one at school or that did it with an amateur and you ended up with a disc full of nothing you really like. Senior pictures are more for the parents than they are for the senior!

You deserve to have an awesome senior portrait of your son or daughter. Talk to them about how much it would mean if they would do it for you. It doesn't have to be a fight. Once they understand how important this is to you, they'll usually cooperate.

We're a professional studio that specializes in seniors. We've been doing it for thirty years for people just like you. The process is simple and it'll only take an hour out of their day. In the end, your son or daughter will look great, have fun and **YOU** will get a priceless memory of them that will warm your heart every time you walk past it for the rest of your life. Don't miss out on the chance to capture this family milestone forever while they are still a senior!

Warm regards,

Bob & Christine Thomson
